

**Sale Name:** May - Factory Direct Equipment Auction

**LOT 12 - 2.5 Ton AGT MX50R Mini Excavator w/ Hydro Thumb, Pilot Controls & Tank Trackss**

**Description**

**POWERFUL 2.5 TON AGT MX50R MINI EXCAVATOR - DOMINATE ANY TERRAIN**

**WITH CONFIDENCE!** Conquer challenging job sites with this beast of a machine featuring a robust RATO 29HP/21KW EPA-certified gasoline engine that delivers diesel-like torque without the fuel costs! The innovative expandable off-road undercarriage provides unmatched stability on steep slopes and soft ground conditions, while the heavy-duty tank-style tracks ensure superior traction in mud, sand, and rocky terrain. Equipped with a commercial-grade hydraulic thumb attachment, this excavator effortlessly handles brush clearing, stump removal, and precise material placement with operator-friendly controls and exceptional visibility.

**THE ULTIMATE SOLUTION FOR PROFESSIONALS WHO REFUSE TO COMPROMISE!**

The side-swing boom design allows for operation alongside buildings and obstacles that would stop other excavators, while the impressive digging depth and reach outperform machines costing thousands more. Landscapers will transform properties in half the time, farmers will marvel at the versatility from fence building to pond maintenance, and contractors will appreciate the reliability and power when trenching through challenging soil conditions. With intuitive controls, accessible service points, and the ability to run attachments designed for much larger machines, this excavator delivers outstanding value without sacrificing performance. Don't settle for less - elevate your capabilities with this professional-grade workhorse that pays for itself with every project!

RATO 29HP,21KW Gasoline Engine with EPA ,Bkt Off-road Undercarriage Expansion Hydraulic Thumb ,with Side Swing
