LOT 14A - Livestock Metal Shed

Description

PREMIUM LIVESTOCK METAL SHED - BUILT TOUGH FOR YEARS OF DEPENDABLE PROTECTION! Invest in superior shelter with this ready-to-assemble livestock shed featuring commercial-grade 16-gauge 2" square steel tube framing and premium 29-gauge galvanized corrugated steel roof panels in elegant cream! The thoughtfully designed sloped roof (125" front height, 100" rear) ensures optimal water runoff and maximum interior clearance while providing an impressive 240 square feet of covered space. The skid-mounted base with integrated pull eyelets on both sides offers incredible versatility - easily reposition your shed wherever needed across your property without disassembly or specialized equipment!

SMART SOLUTION FOR SAVVY PROPERTY OWNERS WHO DEMAND VALUE! Save thousands compared to traditional construction methods while enjoying same-day setup without the headaches of permits, contractors, or lengthy building timelines. This multi-purpose structure excels as livestock shelter, equipment storage, hay protection, or even a workshop, with the durability to withstand harsh weather conditions year after year. The galvanized steel construction requires virtually zero maintenance, eliminates concerns about rot, termites or rodent damage, and includes 5% extra fittings to ensure hassle-free assembly. Why wait months and overpay for custom construction when this professional-grade, portable solution delivers immediate protection at a fraction of the cost?
