LOT 12A - Metal Garage 30'(L)x 20'(W) x 13'(H)

Description

PREMIUM 30'x20' METAL GARAGE - PROFESSIONAL-GRADE CONSTRUCTION AT AN UNBEATABLE VALUE! Transform your property with this massive 600 square foot metal garage featuring robust 2"x2" 17GA primary framing and durable 27GA metal roof panels engineered to withstand challenging weather conditions! The impressive 13' peak ceiling height accommodates RVs, boats, and commercial vehicles with room to spare, while the generous 10' sidewalls provide ample space for shelving, workbenches, and storage solutions. Built to professional standards with a 30 PSF snow load capacity and 75 MPH wind resistance, this substantial structure delivers long-lasting protection while weighing just 1,797 pounds for easier site preparation.

THE INTELLIGENT SOLUTION FOR PROPERTY OWNERS DEMANDING SPACE AND DURABILITY! Skip the astronomical costs of traditional construction and avoid months of disruptive building processes with this ready-to-assemble metal garage that installs in a fraction of the time. Perfect for vehicle storage, workshop space, equipment protection, or even a home gym, this versatile structure adds immediate value to your property without the headaches of permits and contractors in many jurisdictions. The maintenance-free metal construction eliminates concerns about rot, termites, or painting, while providing superior fire resistance compared to wooden structures. Make the smart investment in expanding your usable space with this commercial-quality metal garage that delivers exceptional performance and value for decades to come!
