Description

Brand: Rylena Condition: Open Box - Not Tested In Packaging?: Yes Assembly Required?: No Damaged?: No Functional?: Yes Missing Parts?: No Model: HT-2002 Star Rating: 0.0 Title: \$100 Rylena Travel Steamer, 180 Rotatable, LeakProof WORLD S 1ST

ROTATING CLAMP IRON: Typical clamp irons struggle with large garments like dresses, shirt centers, and curtains due to their fixed structure, covering only 50% of the fabric. Rylena Steam Iron features an innovative 180 rotating design, seamlessly switching between a clamp iron, handheld steamer, and flat iron. It ensures 100% full coverage, from wide surfaces to intricate details, with 200% improved efficiency **ALL-IN-ONE**

EASY IRONING: This travel steam iron combines steaming, dry ironing, hanging, flat, and clamp ironing in one compact device. Featuring three adjustable heat settings, it caters to different fabrics with precision. The intuitive three-button layout ensures ease of use for all skill levels. No ironing board required you can iron comfortably anywhere, even from your sofa, saving both time and space **READY TO IRON IN SECONDS:** Equipped with a high-power aluminum heat plate, this portable steamer iron heats up instantly in just 0.1 seconds, offering 60% faster steam readiness than most irons. The aluminum plate ensures rapid and even heat distribution, reducing wait time and improving efficiency. Iron a dress shirt in just 2-3 minutes, making it ideal for busy mornings. Compared to traditional irons, it saves 50% more energy **100% FINER STEAM, NO WATER SPLASH:** The advanced 2025 Anti-Drip & Anti-Splash Tech ensures 100% water-to-steam conversion through a dual-vaporization process. Water is first heated into steam, then further refined for a finer, drier output. The 7 steam output channels have been narrowed by 3X, allowing only pure steam to pass through, effectively preventing drips and splashes. This triple protection system keeps clothes dry and ready to wear immediately **2X LARGER TANK, ZERO LEAKS:** Iron 3-4 T-shirts per fill twice the capacity of most travel Steamers reducing the hassle of frequent refills. The high-elasticity silicone cap forms a flexible yet airtight seal. Meanwhile, the precision-engineered duckbill valve acts as a one-way barrier, allowing water flow only when needed and sealing shut under pressure. This dual-seal system ensures zero leaks, even with vigorous movement proven through 10,000 cycles **ONE PRESS TO PERFECTION:** The 3mm-thick ceramic-coated ironing plate retains heat 30% more effectively than standard plates, ensuring consistent high temperatures for superior wrinkle removal. Its ultra-smooth surface reduces friction by 40%, gliding effortlessly over fabrics without snagging. A single press erases wrinkles instantly. In clamp mode, the dual-plate system applies even pressure, delivering crisp, professional creases that match dry-cleaning standards **COMFORTABLE GRIP, EASY PRESS:** Ergonomically designed with a 1.9-inch slim body width, ensuring a comfortable fit even for smaller hands. The lightweight build and soft-spring clamp require 50% less effort compared to other handheld steam irons, reducing strain and making ironing noticeably easier. Even after ironing multiple garments, your hands stay comfortable and strain-free **GENTLE CARE ON LUXURY FABRICS:** One of the few steam irons designed to care for delicate, high-end fabrics like silk, cashmere, and natural fibers. Its ultra-smooth ceramic soleplate reduces friction, gliding effortlessly without snagging. Even heat distribution and ultra-fine steam prevent fiber damage, color fading, or texture loss. It maintains linen's structure, protects silk's sheen, and ensures your clothes stay fresh, flawless, and perfectly maintained **SAFE AND CONVENIENT:** The built-in safety lock keeps the steam iron securely folded when not in use, making it ideal for homes with children and pets by preventing accidental burns. The oversized water inlet allows for quick, spill-free refills. Features overheat protection, an ironing glove, a measuring cup, and an 8ft power cord, ensuring both safety and convenience with every use **COMPACT AND TRAVEL-READY:** The slim 13.0 x 1.93 x 2.20-inch design weighs just 1.54 lbs (body only). The foldable design makes it easy to store in suitcases, backpacks, or small spaces, perfect for home, travel, dorms, and even cruise trip. Beyond ironing, it's also great for deodorizing fabrics, sealing bags, and applying iron-on decals, adding versatility to your routine. Designed for 120V use only.
